Park Place Children's Center

A GREAT start to your child's education.

Pre-School Park Place Children's Center

Children learn through play. At Park Place Children's Center your child will use the interactive experiences of play to learn and grow. They will have the opportunity to try out new ideas, develop a positive attitude toward participating in new experiences and build friendships.

Daily activities include building with blocks, dramatic play, enjoying books, playing with sand and water and creating art.
